Start, MIECHV, Early Head Start — Child Care Partnerships, Child Care and Development Fund.

\$19M

Federal Child
Care Tax Credit

Federal Programs*

States across the nation are leading the way to ensure more children—especially those from low-income families—have access to high-quality early learning and care from birth through age five. And much of the progress at the state and local level has been made possible by strong partnerships with the federal government aimed at expanding access, increasing quality, and more. In Utah (UT), over 18,000 children have access to quality early learning and care through state and federal funding. This abbreviated overview provides a glimpse of the early childhood education opportunities that exist in Utah, including those made possible with federal funding in fiscal year 2015.

A TIMELINE OF STATE LEADERSHIP: EARLY CHILDHOOD EDUCATION IN UTAH

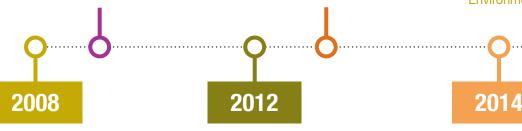

2011

Early Childhood Utah (ECU), a statewide early childhood systems group with the purpose of improving Utah's early childhood system, is established. 2013

Social impact bond, also known as the Pay For Success Financing, is adopted to provide high-impact, targeted curriculum to preschool-aged children from low-income communities.

2016

High Quality School Readiness
Expansion, which provides grant funds
to LEAs with existing early education
programs deemed high-quality, as
determined by the Early Childhood
Environment Rating Scale, passes.

Office Of Home Visiting (UT OHV) is effectively established by the Title V Evidence Based Home Visiting Grant awarded to the state by HHS. Program pilots in Davis, Logan, and Weber counties. UT adopts Early Childhood Core Standards related to: physical well-being and motor development; social-emotional development; approaches toward learning; language development; and cognitive and general knowledge. The High Quality School Readiness Initiative, aimed at increasing school readiness, improving outcomes, and reducing remediation costs associated with poor academic outcomes, passes.

EVERY YEAR:

Head Start and Early Head Start serve 6,000+ CHILDREN IN UTAH

18,000+

Over 18,000 kids benefit from federal and state programs.**

**Federal and state programs include State Pre-K, Head Start and Early Head Start, MIECHV, and the Child Care and Development Fund. MIECHV figures include parents and children served.

900+

The Federal Maternal, Infant, and Early Childhood Home Visiting program (MIECHV) supports 925 voluntary home visits to new parents each year.

\$9,100

Center-based care costs approximately \$9,100 per child.

"Ensuring that every child has access to a high-quality education is a top priority shared by all, Republican and Democrat alike."

- UTAH U.S. SENATOR ORRIN HATCH

HIGH-QUALITY EARLY EDUCATION: UTAH PREPARING STUDENTS TODAY (UPSTART UTAH)

- UPSTART is an in-home, technology-delivered kindergarten readiness program launched in 2009 by the Utah State Office of Education (USOE) and the Waterford Institute. It uses award-winning adaptive software to provide preschool-aged children an individualized reading, math, and science curriculum at home, and a robust parent engagement program to support and involve families.
- Each year since its inception, UPSTART has received successful external evaluations, and in recent years has grown to serve approximately 10,000 children annually, which is roughly 20% of the state's four-year-olds.
- An independent evaluation by the Utah State Office of Education shows children who participated in UPSTART the year before kindergarten saw immediate positive gains and were still outperforming state averages on standardized tests in grades first through fourth.
- UPSTART increases access to early learning opportunities for rural and underserved communities. In 2013, Waterford was awarded an \$11.5 million Investing in Innovation (i3) grant by the U.S. Dept. of Education to expand UPSTART to rural children in Utah.

IN UTAH, EARLY CHILDHOOD EDUCATION IS SHOWN TO:

Improve Social/ Emotional Development

Grow Literacy/ Numeracy Skills

Increase Wages

Reduce the Need for Spending on Special Education
